## Master map

The drawing to the right shows what the maze should look like. The maze is 16 x 16 m. It can be built with plastic strips secured to posts or other suitable pole. You can also build it with fences or banners (see photo below from last year). Each sector in the maze is 2 m and it's this distance that determines the maze.

This drawing shows an example of how to build a maze with the help of poles and plastic ribbons.
